

Please leave Indiana's Telephone Privacy Law in place. I am enjoying my privacy because I am receiving few unwanted telephone calls since I requested to be on the DO NOT CALL list. I previously received at least 12-15 calls per week, now I may get one. My time at home has been much improved since this option was instituted by the State of Indiana. I am not interrupted from doing my chores at home. I enjoy my privacy and do not want it taken away. Thank you.
